Subject: RE: City of Kalamazoo/EPA conference Call

All,

Thank you for your help with this. It looks like the city is going to use a setup at the hospital where the mayor works. I appreciate you all scrambling to make this happen. So, for now I do not think that we are going to need to use your facilities. But... don't be surprised if I frantically call you on Monday afternoon.

Thank you,
 Michael

Fred,

I appreciate your assistance on this. Michael (whom I have copied on this email) will need to provide the details, as I am out of the loop for the most part. I trust adequate lead time can be provided, to make this as smooth as possible to you guy's in the district.

Michael, I trust you can provide Fred with some details to limit the chaos.

Thanks

Subject: City of Kalamazoo/EPA conference Call

Paul,

Are you aware of when the City and EPA want to have this conference call? So far I have heard three different dates.

Chris DuCharme is not in today and I will not be in on Monday (which is one of the days that has been mentioned). Currently we have a previously discarded 35 " TV that can be used for a video conference. The picture is a bit fuzzy and has a bluish tint. This improves somewhat 90 minutes or so after the TV is turned on. It can in no way be confused with anything close to HD. Our camera, I believe is state of the art, so the broadcast to EPA should be fine, the problem is more viewing on our end.

I understand that you are not really involved in this production, but could you relay the e mail to the appropriate party (ies)? When the call is to take place is a big deal. We want to be as accommodating as we can with our limited resources.

Thanks
